BASIC WCF COVID RULES for season 2022-2023

WCF events will follow the national guidelines of each host country.

Please note the following:

1. It is the responsibility of each event participant to find out the COVID guidelines for travel to, and while staying in the host country.
2. There will be no compulsory COVID testing at WCF events.
3. Each event participant should travel with their own COVID test kits in case they require them. WCF will not provide COVID test kits.
4. If an event participant feels unwell, they should do a COVID test. If the test is positive, the WCF strongly recommends isolating or travelling home. This is for the well-being of your team and the event.
5. Unless national rules state otherwise, masks are not required. Masks can be worn for your own safety. If masks are work in the FOP or on the Coach Bench, they must follow the Uniform and Cresting Policy.
6. There will be no disinfecting of stone handles. Wipes will be available if any team wishes to disinfect their own stones.
7. Social distancing, where possible, is strongly recommended.
8. The tradition of exchanging pins and crests is allowed.
9. There will be no extra distancing or divider screens on the coach bench.

If the COVID pandemic situation changes, this document may be updated during the season.
